Expected impact

Evidence quality **57/100** (moderate) · data completeness **18%**

OUTCOME	P50	P10 – P90	UNIT	UNCERTAINTY
People · households	**21,000**	8,300 – 57,000	depth-weighted person-years	wide
Climate · tCO2e	**32,000**	12,000 – 81,000	tCO2e	wide

Evidence plan

1. **Have the headline reach figure (42,000 households) verified by a third party.** Reach drives most of the remaining uncertainty.
2. **Report the sector's core metrics: Energy Generated for Sale: Renewable, Energy Capacity of Products Sold, Client Feedback System.** Only 18% of the core set is reported.
3. **Back the main figures with data: monitoring records, surveys or audited accounts.** Evidence quality is moderate (57/100).

5-Dimension impact score

DIMENSION	SCORE	PROGRESS	PROVENANCE	NOTES
What	2.5		partial	1 metric reported · 1 of 16 reference metrics
Who	2.5		evidence-based	3 metrics reported · 0 of 1 reference metrics
How Much	1.7		partial	Scale=1.7, Depth=1.7, Duration=1.7
Contribution	2.1		estimated	Depth=2.1, Duration=2.1
Risk	1.0		estimated	Estimated from sector/description · 4 reference metrics to track

Recommendations

- Measure HOW MUCH: track scale (# stakeholders), depth (degree of change), and duration
- Evaluate RISK: assess evidence risk, execution risk, and external risk factors

Impact targets as investment conditions

No binding impact targets have been set yet. Suggested conditions, drawn from the evidence plan and the company's own targets, for the committee to adopt, amend or drop:

TYPE	SUGGESTED CONDITION	WHEN	WHY
Condition precedent	Have the headline reach figure (42,000 households) verified by a third party.	before closing	Reach drives most of the remaining uncertainty.
Condition precedent	Show how you manage: forced or child labour in the polysilicon / mineral supply chain (affects supply-chain workers).	before first disbursement	Material negative impact (severity 3 × likelihood 2) with no control described in the documents.
Covenant	Report progress against the company's own target: “Over the next three years we target 150,000 connected households and 80,000 tCO2e avoided per year, and we report against IRIS+, SDG 7/1/13 and the GOGLA impact metrics.”	reported every year	The company states this target; a covenant makes it binding rather than aspirational.
Reporting requirement	Report the sector's core metrics: Energy Generated for Sale: Renewable, Energy Capacity of Products Sold, Client Feedback System.	in each annual report	Only 18% of the core set is reported.

TYPE	SUGGESTED CONDITION	WHEN	WHY
Reporting requirement	Back the main figures with data: monitoring records, surveys or audited accounts.	in each annual report	Evidence quality is moderate (57/100).
